

PROPERTIES

coda-Cu-L is a copper liquid complex. It is specially recommended both foliar and root applications (fertigation) to prevent and correct copper deficiencies.

coda-Cu-L contains sulphur which comes from the natural complexing agent (lignosulfonate). Sulphur is the responsible for a better copper absorption and assimilation in the plant. In addition it is a perfect acidifying agent of the water pH in the nutritive solution or in spray applications improving nutrient assimilation.

GUARANTEED ANALYSIS	% w/w	% w/v
Copper (Cu) complexed and water soluble	5.0	6.0

Complexing agent: Lignosulfonates.

OBSERVATIONS

coda-Cu-L May be harmful if swallowed; Causes skin irritation; Cause serious eye irritation; May cause an allergic skin reaction; May cause damage to organs (kidney, renal system) through prolonged or repeated exposure; Very toxic to aquatic life with long lasting effects. Read label before use. Wear protective gloves and eye and face protection. IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs get medical advice / attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice / attention. Do not breathe fumes, mist, vapours, or spray. Wear respiratory protection. Contaminated clothing should not be allowed out on the workplace. Take off contaminated clothing and wash before re-use.
