

PROPERTIES

coda-Mn-L is a solution of manganese complexed by lignosulphonates, recommended for foliar or fertigation.

coda-Mn-L prevents and corrects manganese deficiencies, improving protein synthesis, stimulating photosynthesis and favoring a large number of enzymatic processes in plant. It also promotes good root development.

GUARANTEED ANALYSIS		
	% w/w	% w/v
Manganese (Mn) complexed and water soluble	8.0	10.64

Complexing agent: Lignosulfonates.

OBSERVATIONS

coda-Mn-L is compatible with most of the agrochemical products, but a previous compatibility test is recommended.

Optimal storage temperature is between 5 and 30°C. Not to pile up more than 3 packages or 5 boxes of height. It is recommended to apply the product under agronomic technical advice.

Causes eye irritation. Causes damage to organs through prolonged or repeated exposure. Toxic to aquatic life with long-lasting effects. Read label before use.

Do not breathe dust, fume, gas, mist, vapors and spray.

Wash hands thoroughly after handling.

Avoid release to the environment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing. Get medical advice/attention if you feel unwell.

IF eye irritation persists: Get medical advice/attention. Collect spillage.

Disposal of waste product and containers must be in accord with local bylaws and regulations. Keep out of reach of children.

Do not eat, drink or smoke when using this product.

Contains Manganese Sulphate 10-30%.
